

*New Co-Rider tape announcement from Mike Wright.*

Hello Everyone,

The long awaited revision of the Co-Rider Tape is now in the warehouse and can be ordered at a cost of \$19.95, same price as the previous tape.

We certainly regret the inconvenience experienced by everyone in this effort to update the tape to a new look so to speak. The old version was an excellent piece of work with great educational value, the credits for which go to Pete Woodruff. Because of the renewal requirements on certain rider education levels and the number of times that Members had viewed the tape we had received numerous requests to revise and update the previous edition. The new tape also depicts an 1800, 1500, 1200, trike and Valkyrie.

I want to add that Pete is still hard at work promoting the education of co-riders along with many others in the field of rider education, and we applaud them all for their ongoing efforts. This new tape starts with the very basics of the motorcycle and it's operation. Even a novice new to a motorcycling will have a solid foundation on the why's and wherefores of it's operation.

We are currently in the process of forwarding a copy of the new revision to each Region Director's Library as well as Bob Lorenz and Joe Allen of the Rider Education Division. We are pleased to forward a copy to Pete as well.

Please bear in mind that these tapes are copyrighted and are not for reproduction and, if you would pass the word on to the field as to its availability, it will be greatly appreciated.

Regards,

Mike
