## CHAPTER DIRECTOR

Hello Everyone!

Well, it's almost that time of the year again. Yeah I know where did the summer go? Hopefully you were able to enjoy it while it lasted because old man winter will be rearing his ugly head in the near future. I think this month is probably one of the best riding months of the year. The fall foliage is quite spectacular in our area alone. There are several places you can ride to too see some of the most beautiful and colorful trees around. I hope you all get a chance to check out the great scenery before it's all gone for another year. Please take caution when going for that fall ride, those beautiful leaves can also be very dangerous when wet and on the roads.

I know I've mentioned this several times already but we really need to get this resolved in order for this Chapter to continue to be a fun place for us to meet and have good times together. And that issue is a current Assistant Chapter Director and future Chapter Director. We need to have someone as our ACD who will be willing to step into the Chapter Director position when I step down at the end of my term in October of 2009. I will answer any questions someone might have about the position(s). They are not difficult positions to be a part of, we have many current members within our Chapter who have already been in the positions and have extensive knowledge of GWRRA and its functions and I'm sure they too will answer questions someone might have. I can truly say that our Chapter has some of the best staff members that you will find in all of GWRRA. If it were not for them helping Erin and I out, it would have been one of the tougher challenges for us. I know there are a few of you out there that would make great contributions to this Chapter. All you have to do is take that first step. I can tell you from our own experiences that Erin and I have met many new wonderful people and made some great friendships within GWRRA. And I know if we were not CD's we would not have met most of them. Trust me when I say that this position will be a great addition to your life!!

Take Care & God Bless!!  
Brian & Erin Craig

## THE GAS MEN

Two gas company servicemen, a senior training supervisor and a young trainee were out checking meters in a suburban neighborhood. They parked their truck at the end of the alley and worked their way to the other end.

At the last house, a woman looking out her kitchen window watched the two men as they checked her gas meter.

Finishing the meter check, the senior supervisor challenged his younger coworker to a foot race down the alley and back to the truck to prove that an older guy could outrun a younger one.

As they came running up to the truck, they realized the lady from that last house was huffing and puffing right behind them. They stopped and asked her what was wrong.

Gasping for breath, she replied, "When I see two gas men running as hard as you two were, I figured I'd better run too!"
